Dynamic working

Office workers often sit for more than ten hours a day. Sitting has become part of our modern lifestyle. And that is not a healthy development. Markant will not let that happen.

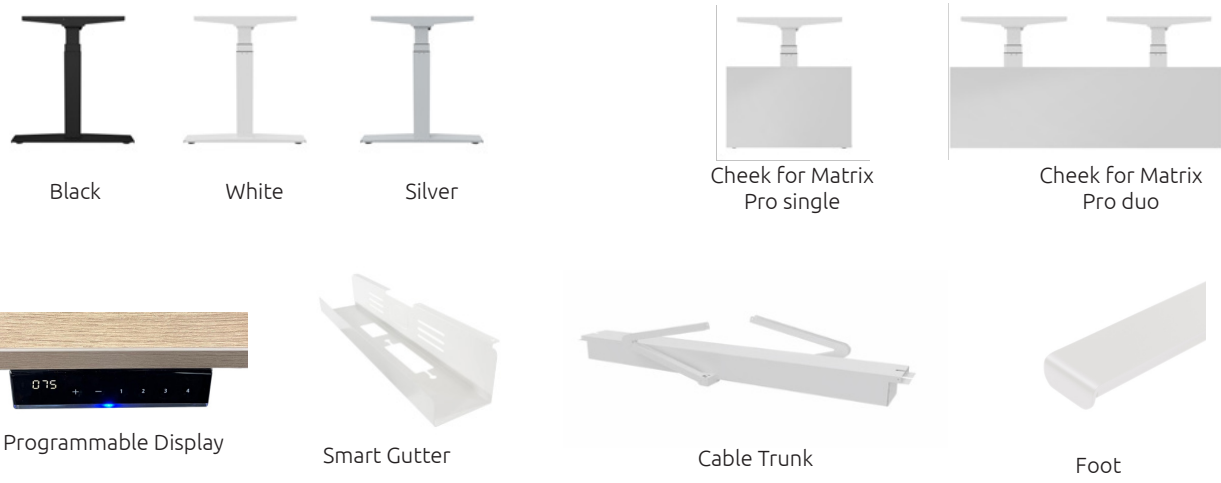

We help to create a dynamic workplace. A dynamic workplace, you might ask? A dynamic workplace is one where you can easily alternate between sitting and standing. This variation is essential for your body to remain active and healthy.

Matrix Pro

The Matrix Pro is a unique sit-stand desk. The base with a telescopic beam makes the desk suitable for tops from 120 to 2100 cm wide. With an adjustment range of 64 to 130 cm Matrix Pro meets all necessary standards.

The extremely quiet height adjustment with two motors also ensures an extremely pleasant way of working in the most quiet rooms. This makes Matrix Pro the ideal sit-stand workplace: for the office, at home, in the study room or in the workshop.

Personalize your **Matrix Pro** by combining colors and materials or give your desk a unique look with the optional cheek.
